

FANTEC AIR-300

Air Mouse Keyboard Remote Control

The AIR-300 is a wireless air mouse with integrated gyroscope and accelerometer, an integrated keyboard with German layout and voice input. The Air Mouse performs the functions of a traditional remote control, computer mouse, and gaming motion controller. The plug and play USB receiver is compatible with personal computer, projector, TV box, Home Theater Personal Computer, etc.

Holding the air mouse and rotating your wrist is converted into a movement of a cursor across the screen and it allows you to control your computer, projector and other entertainment equipment from a distance.

Ergonomics of air mouse will replace stationary computer mouse and infrared button remote control giving you convenience to manage your computer and television set from a position which is most comfortable with you.
