

FANTEC DS-X2U3-Alu

The FANTEC DS-X2U3-Alu is a compact Clone & Docking station for the installation of 2x 2.5" (6.35cm) and/or 2x 3.5" (8.89cm) SATA I/II/III hard drive or SSD. By simply pushing the Clone button you can create sector by sector copies without connecting to a computer. The status of the clone progress of the hard drive, can be followed by appropriate LEDs. The USB 3.0 SUPERSPEED interface provides high data transfer up to 5Gbps. Due to the quick and easy installation with plug and play and the screwless and carrierfree design, the hard drive is ready to use within seconds. The rugged design and the black aluminum case provides high stability.

- 1 USB 3.0 SUPERSPEED
